migration from legacy
CSP to NCE timeline

Legacy seat-based subscription Migration to NCE

What?

- Microsoft will be retiring the CSP Legacy Commerce Platform and start moving legacy CSP subscriptions to NCE on subscription renewal date.
- This affect all commercial, Edu and NFP subscriptions

From January 2024

- **Commercial:**
 - Microsoft will begin Automatic Migration of all renewing commercial Legacy seat-based subscriptions to NCE on subscription renewal date.
 - Migrated subscriptions will be set to the Annual term, billing frequency unchanged
 - As per NCE cancellation windows, partners will have seven days to change the subscription term and/or quantity or cancel the subscription,
 - If customer wants monthly subscription term, partner should migrate the subscription to NCE monthly commit subscription before anniversary.
- **NFP / Education:**
 - NCE NFP/Education offers will become available in **4 waves**
 - Partners can begin migrating NFP/Education subscriptions to NCE.
 - Pre-requisite: Partners need to be on new PRISM experience

From July 2024

- Microsoft will begin auto-migration of legacy NFP/Education customer subscriptions to NCE on subscription renewal date.

Moving legacy CSP Subscription that cannot be migrated

- Not all legacy CSP subscriptions can be migrated to NCE.
- Products not available using migration tool:
 1. Special Promo product
 2. Retired or deprecated products
 3. Subscriptions without a corresponding offer available in New Commerce
 4. Migratable base subscriptions with ineligible add-ons won't be migrated.
 - For example, base is commercial but has an education add-on
- For these subscriptions:
 1. Creating new subscription for the product
 2. Check the new subscription is provisioned successfully
 3. Assign new products to users (if needed)
 4. Suspend the legacy CSP subscription

Options for Whitelisted Partners

Manual Migration prior to renewal

- You can manually migrate subscriptions proactively before the renewal date
- You have greater control in best aligning the transition to their preferences.
 - Subscription End date
 - Qty of annual vs monthly commit license
- This is required to migrate to different commitment term and/or billing frequency.

Microsoft's Auto-Migration

- For subscriptions that Microsoft auto-migrates at their 2024 renewal date, partners will have a 7-day window for adjustments or cancellations.
- Seat count of migrated subscriptions remains unchanged.

Multiyear offers (for example, six-year education SKUs)	When Academic and NFP NCE offers become available under NCE	To be confirmed, on the subscription renewal date in 2024, 2025, and onward

Options for Non-whitelisted Partners

Manual Migration prior to renewal

- **Non-whitelisted partners** need to migrate their customers' legacy CSP subscriptions to either:
 - NCE monthly commitment monthly payment, or
 - NCE annual commitment annual payment subscriptions
- An EDM has been sent out to notify whether you are whitelisted based on payment history.
- rhipe reserves the right to cancel out of policy subscriptions.

rhipe NCE blog

- <https://www.rhipe.com/resources/insights/blogs/transitioning-from-csp-to-nce/>

Updated on 16th November 2023: Microsoft will make NCE for academic and NFP customers available from January 1, 2024 in waves. Microsoft will begin the auto-migration of academic and NFP customers to NCE from July 1, 2024.

Microsoft is embarking on a significant next phase towards retiring the CSP legacy commerce platform. For our CSP reseller partners, these changes bear important implications for managing your customers' subscriptions effectively. Let's delve into the pivotal steps that Microsoft is taking and how you can prepare your customers for these changes,

- From January 11, 2024, Microsoft will begin **Automatic Migration** of all renewing Legacy Commercial seat-based subscriptions to NCE, on the date of subscription renewal. The migration will be for legacy Commercial subscriptions only.
- Starting January 1, 2024, Microsoft will also launch CSP public sector offers, including those for Academic and Not-for-profit (NFP) customers, in the new commerce system. Microsoft launch of CSP education and nonprofit offers in four waves, with more details available in later section of this blog.
- To give partners time to adjust to this change, Microsoft-led automatic migration of public sector offers will begin starting July 1, 2024.

Here are the key dates for each migration:

CSP offers	Available in new commerce	Microsoft-led migration begins for offers renewing on this date
Commercial SKUs	Now	January 11, 2024
Education, nonprofit, US GCC SKUs	Starting January 1, 2024	July 1, 2024

Pricing Impact when Migrating

- Price for the latest CSP pricelist will be used.
- For ANZ customers, it means that the new price from September 1, 2023 will be used.
- Partners should consider moving these subscriptions at the closer to subscription anniversary.

Consistent global pricing for the Microsoft Cloud

July 5, 2023 | Microsoft Stories

As communicated in October 2022, Microsoft has established a defined and transparent cadence to its existing process of aligning Microsoft Cloud pricing globally to U.S. dollar levels. This ensures that customers across different geographies and currencies will encounter consistent pricing reflecting the exchange rate of the local currency to the U.S. dollar (USD).

Today, Microsoft is announcing pricelist changes to adjust prices for Microsoft cloud services to global levels and prioritize local pricing stability for OnPrem.

Starting September 1, 2023, pricing for Microsoft Cloud and software services will be adjusted in the following currencies:

Currency	Cloud Change %*	OnPrem Change %*
Australian Dollar	+9%	+9%
Canadian Dollar	+6%	+6%
New Zealand Dollar	+7%	None
Swiss Franc	-9%	None

**Percentage changes on individual SKUs may vary slightly from these percentages due to pricing calculations and rounding rules.*

NCE Migration Experience

- Options available:
 - Billing Frequency: Monthly, Annual
 - Commitment Term: 1 month, 1 year*
- Adjust the quantity as needed.
- Select **Start new term in New Commerce Experience** if you want to start a fresh 1 month / 1 year term
- Add-on needs to be moved to NCE together with base subscription.
 - Cancel subscription after migration if you don't need the add-on subscription anymore

The screenshot shows the RHIPE PRISM portal interface. On the left is a navigation sidebar with icons for Dashboard, Programs, Customer Management, Invoices, Price Lists, Reports, Contact Management, Contact Us, Admin, User Management, and Integrations. The main content area displays a notification about Azure portal migration and a table of subscriptions. GDAP requests

MANAGING GDAP

GDAP in brief

GDAP is a security feature that provides customers with least-privileged access following the Zero Trust cybersecurity protocol. It lets customers configure granular and time-bound access to their workloads in production and sandbox environments. This least-privileged access needs to be explicitly granted to CSP Resellers by their customers. Access can be partitioned per customer.

Please note that for rhipe/Crayon to raise a "Premier Support Case" to Microsoft on a customer's behalf, we require that rhipe/Crayon is provided with at least Minimum permission via GDAP. This is indicated in our support agreement with Partners. The reason for this is that premier support cases are raised within the affected customer admin portal.

MANAGING GDAP

GDAP in Prism

Within PRISM the GDAP tooling is for managing the relationships between rhipe and the end customer. As a partner, you will also need to request to create a GDAP relationship with your end customer.

To manage GDAP for a tenant, navigate to the tenant and select “Manage”

Within the tenant select “Manage GDAP” to access the GDAP settings within PRISM

Administration Request for gdaptesttenant28102022.onmicrosoft.com

rhiPE has received a request to create an Admin Relationship with gdaptesttenant28102022.onmicrosoft.com. This admin relationship will allow access to the tenant by the rhiPE team for the following actions:

- Configure access and permissions on new orders, specifically Azure and Azure Reserved Instances;
- Assist you in administering your products; and
- Raise vendor support escalations where required.

If these permissions expire or are removed, we will not be able to provide support to this tenant until they are reinstated with at least the 'Minimum Permissions' option in PRISM Portal.

Any Global Admin account on this tenant may remove these permissions at any time. This can be done in the [Microsoft Admin Center](#) under **Settings > Partner Relationships**.
